

Legacy Tape Restore Service

Get the data you need, when you need it.

Whether initiated by legal action, a compliance audit or a simple end-user request, when the call comes to restore archived data, the IT organization must deliver. It's that simple.

Unfortunately, recovering data from legacy or obsolete tapes is anything but simple. Businesses required to retain information for years often find that data is stored on media that is no longer supported or the backup software no longer in production. Restoring legacy media becomes a laborious, painful process that directly impacts day-to-day operations.

Daymark Solutions simplifies the restoration process with its Legacy Tape Restore (LTR) service. Tapes delivered to Daymark's highly secure Restoration Center are quickly and accurately restored by technical experts, and returned to the client in a useable format, on any desired media.

With Daymark's LTR service, restoring legacy tapes really is that simple.

Simplify Legacy Tape Restores with Daymark Solutions

The Legacy Tape Restore (LTR) service from Daymark Solutions offers a comprehensive solution to a perplexing problem. It provides:

Technical Expertise: A longtime partner of leading storage vendors, Daymark has in-depth technical knowledge of legacy backup/recovery systems. A range of legacy hardware and software solutions are always operational in its state-of-the-art Restoration Center.

Competency: Daymark's experts have extensive hands-on experience performing restores and excel at troubleshooting problem restores.

Rapid Response: Customized service level agreements ensure all requests are processed in accordance with your unique requirements.

Secure Environment: Daymark's highly secure Restoration Center follows rigorous procedures and security best practices, including 7x24 monitoring, restricted access and activity logging, to ensure your data is always safe.

Flexibility: Data can be recovered to a USB drive, CD, current tape format, or it can be delivered via FTP.

Cost-effective Restoration: For a nominal subscription fee, Daymark maintains your legacy backup catalog and backup devices at its Restoration Center and stands ready to fulfill any restore request. Fees are assessed on a per-restore schedule.

About Daymark

Daymark Solutions architects, provides and implements effective IT infrastructure solutions for businesses in the Northeastern United States. With in-depth technology knowledge, proven methodologies and a strong focus on backup/recovery, storage infrastructure and high availability, Daymark Solutions can resolve your most difficult technology challenges.
