

Daymark DPS – Enterprise Cloud Backup

The Cloud Backup Advantage

Never has the need for reliable and secure backup and recovery been more critical for today's "always on" enterprises. IT directors from all industries recognize the importance of having access to mission-critical files at a moment's notice.

Daymark DPS Enterprise Cloud Backup provides infrastructure professionals peace-of-mind that backups are always completed and recoverable.

Key reasons to work with Daymark:

- 15-year history of successful technology innovation
- Recognized as a Top 100 Global Cloud Provider
- End-to-end compliance certifications for initiatives including SSAE-16, HIPAA, ITAR, Sarbanes Oxley, ATF and PCI
- Geographically dispersed data centers that provide seven-factor authentication and full N+1 redundancy
- Scalable backup hosted solutions from retrieving individual files to complete enterprise IT restoration

By leveraging Daymark's expertise in hosted infrastructure, organizations consistently reduce their maintenance and management costs year over year while improving network capabilities, cost efficiencies, and enterprise level data protection.

Daymark DPS Cloud Connect

Daymark DPS Cloud Connect is the latest in integrated offsite backup. Choose from one of our secure facilities with enterprise level redundancy and provision secure backups in a matter of minutes. Coupled with robust recovery options including private and enterprise cloud, it is a comprehensive solution for your backup and recovery initiatives.

Simple & Powerful DPS Cloud Connect Repositories

Daymark provides a simple yet powerful Cloud Connect experience. Delivered on load balanced and highly available infrastructure, while backed by the intelligent, powerful and infinitely scalable CEPH storage platform, Daymark DPS Cloud Connect repositories are as reliable as they are innovative. Intelligent storage is the key to intelligent data protection and we invite you to come

Daymark DPS

- ✓ Self-service and auto provisioning
- ✓ Fully integrated on-line dashboard
- ✓ 5 minutes to set up and send data

Recovery Guaranteed

- ✓ Complete N+1 infrastructure redundancy
- ✓ Hands-on or hands-off testing with either managed or self-activated options
- ✓ Access to cloud backup and recovery experts 24x7x365

experience the difference.

Recovery Options

Daymark addresses the most demanding RTOs and RPOs while providing flexible recovery options to meet the needs of nearly any organization. Our globally located data centers deliver geographic diversity and address both latency and processing concerns with regionally distributed facilities.

Our private cloud services provide dedicated infrastructure and best-in-class security options including intrusion detection and stateful packet inspection.

Our IaaS services combine the flexibility of VMware with the protection of top-tier data centers throughout the United States. Daymark's DPS is built to meet the dynamic needs of business with enterprise redundancies, security and near limitless power.

Daymark DPS powered by Veeam

Veeam recognizes the new challenges companies across the globe face in enabling the Always-On Business™, a business that must operate 24/7/365. To address this, Veeam has pioneered a new market of Availability for the Modern Data Center™ by helping organizations meet recovery time and point objectives of less than 15 minutes for all applications and data through a fundamentally new solution that delivers high-speed recovery, data loss avoidance, verified protection, leveraged data and complete visibility.

The Daymark Difference

We take the complexity out of your IT infrastructure. Daymark architects, sells and implements data center infrastructure, data protection, virtualization, managed services and cloud services for businesses throughout New England.

We provide deep technical knowledge, extensive experience and proven methodologies that help our clients make strategic decisions, streamline the acquisition process and successfully implement cost-effective data management infrastructure solutions.
