GOOGLE WORKSPACE → **MICROSOFT 365 GCC HIGH**

5 STEPS FOR GOOGLE TO MICROSOFT 365 GCC HIGH MIGRATION

Is your organization looking to migrate to Microsoft 365 GCC High to meet regulatory compliance requirements for CUI (ITAR, CDI, CTI) data? Our proven methodology, phased approach and Microsoft expertise enable companies to securely transition from Google Workspace (formerly G Suite) to Microsoft 365 GCC High sovereign cloud.

THE FIVE PHASES OF OUR APPROACH ENSURE A SMOOTH TRANSITION IN 4-6 WEEKS

PHASE 1: DESIGN AND PLANNING

- Discovery of existing Google environment configurations
- Review of the completed discovery findings
- Discuss collaboration/usage needs and map to available Microsoft licensing options
- Review of migration approach, timeline and develop migration plan
- Review of Shared Responsibility matrix for cloud environments
- Develop migration communications plan for end users

PHASE 2: CONFIGURATION

- Procure Microsoft 365 GCC High licenses
- Prepare Microsoft 365 GCC High tenant
- Implement security controls and compliance controls
- Implement mail security and threat protection
- Review Microsoft 365 and Azure admin centers
- Configure migration tools

PHASE 3: TESTING AND PILOT

- Test migrations and adjust policies and processes based on findings
- Pilot within IT and with IT-friendly users from various departments
- Analyze pilot feedback and appropriate adjustments
- Schedule Microsoft end user training sessions

PHASE 4: MIGRATION

- Pre-migration of data ahead of cutover
- Finalize migration plan
- Migration and mail routing cutover event
- Post migration data validation and support
- Post migration Microsoft-led user training for products

PHASE 5: PROJECT COMPLETION

- MyDaymark Support Portal onboarding
- Final high level knowledge transfer review (knowledge transfer occurs throughout the project phases)

PROJECT DURATION: 4-6 WEEKS

- This project does not include configuration of the tenant related to security and compliance requirements related to CMMC 2.0.

WE TAKE THE RISK AND COMPLEXITY OUT OF MIGRATION.

Daymark is a Microsoft Licensing Partner for Microsoft 365 Government Community Cloud (GCC), GCC High and Azure Government. GCC and GCC High are secure platforms designed for U.S. federal, state, and local governments, as well as for organizations that deal with government data that falls under strict regulatory requirements.

GCC High enables Defense Industrial Base (DIB) organizations to meet compliance requirements of CMMC 2.0 (Cybersecurity Maturity Model Certification).

Contact us to simplify a secure migration from Google Workspace to Microsoft 365 GCC High.
