

AT A GLANCE

Daymark has been helping organizations navigate technology complexities for more than 20 years. With over 250 technical certifications, strategic partnerships with technology leaders, and an unmatched commitment to our customers' success, we architect and implement customized data center, cloud and government solutions to address the most difficult technical challenges.

DATA CENTER

We simplify IT infrastructure to support quick deployment of new applications and services, optimize network and storage performance, ensure support for cloud and mobile apps, and always make sure your infrastructure is secure and your data is protected and compliant.

CLOUD

We are a Tier 1 Microsoft Cloud Service Provider with deep technical expertise in cloud assessment, architecture, implementation and migration services. Our Microsoft-certified cloud consultants take the risk out of cloud and design a cloud environment — public, private or hybrid that is right for each organization.

GOVERNMENT COMPLIANCE

If your organization handles sensitive government data and needs to comply with compliance regulations, we can simplify and speed the process. We are a Microsoft AOS-G Licensing Partner for Microsoft 365 Government Community Cloud (GCC), GCC High and Azure Government. We are also a Registered Provider Organization (RPO) of the Cybersecurity Maturity Model Certification (CMMC) Accreditation Body.

PROFESSIONAL SERVICES

Let our Professional Services team chart your course for future success. Our technical expertise and vendor-neutral approach, combined with our experience of real-world deployments across a wide range of industries, enable us to solve complex problems with technologies that deliver maximum value and free your IT staff to work on strategic initiatives.

CUSTOMER SUCCESS & SATISFACTION

5-Star ratings from our clients and glowing customer testimonials.
